Protzek - Instant Test for the Detection of Drugs in Urine

Abbreviations: Opiate (OPI), Cocaine (COC), Amphetamine (AMP), Methamphetamine (mAMP), Cannabinoide (THC), Buprenorphin (BUP), Barbiturate (BAR), Methadone (EDDP), Tricyclic Antidepressants (TCA)

PIA²- Mobile Drug Detection System

quantitative, selective and qualitative determination of drugs from different samples, replaces the evaluation of pre-tests, comparable to modern laboratory techniques, offers a maximum of flexibility and efficiency, provides standardised, impartial results within seconds

Detection of BUP, BAR, THC, EDDP, TCA

Cat.No.	Description	Unit
50346	PIA² Mobile Drug Detection System	1 unit
50347	PIA² single, multitest cartridge urine, saliva, blood, sweat, in other substances, on surfaces	25 units 1 package

Protzek Check 24/513, Immunological Multi-Test Detection of OPI, COC, AMP, mAMP, THC1+THC2

Cat.No.	Description	Unit
47977	24/513 Combined Immersion Test	10 tests 1 package
47978	24/513P Combined Test with disposable pipette	10 tests 1 package

Protzek Check 24, Immunological Test Detection of THC1+THC2

Cat.No.	Description	Unit
47979	Check 24 Immersion Test	10 tests 1 package
47980	24P Combined Test with disposable pipette	10 units 1 package

Protzek DS 513Phc, Multi-Test

for the simultaneous detection of various drugs, individually laminated in aluminium foil with desiccant, with pipette and instructions

Detection of OPI, COC, AMP, mAMP, THC150

Cat.No.	Description	Unit
47981	Protzek DS 513Phc	10 tests 1 package

Protzek Check 24 Cup Test

Immunological Multi-Cup Test

combination of urine beaker and test strip which makes the transfer of urine unnecessary. The urine beaker and all test strips (including thermostrips to reduce manipulation) can be closed with a lid. Evaluation possible after 3 minutes.

Detection of OPI, COC, AMP, mAMP, THC1, THC2 (auf Anfrage variabel)

Cat.No.	Description	Unit
50340	Protzek Check 24 Cup Test	1 unit
