

Digital magnifiers

Microscope digital flex, hand/stand microscope with USB connection, 4 adjustable LEDs, resolution photo 1600 x 1200 pixel, photo and video mode, with flexible neck holder stand with suction cup, stage with gridded scale, software and user manual

Art. No.	Description	Unit
53589	Magnification 60x and 250x	1 unit

53589

Illuminated hand magnifier, digital with LCD display integrated digital camera, memory card slot: SD/SDHC, 2 AA batteries, 100 x 70 x 40mm (LxWxH), including USB cable and software

Art. No.	Description	Unit
53381	Magnification 3.5-35x	1 unit

53381

Linen tester

Biconvex, lens made of silicate in precision design, matt chrome, made of brass, with leather case

Art. No.	Description	Unit
48079	Magnification 6x 22.5 x 42mm (DxH)	1 unit

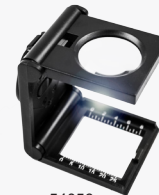

SCHWEIZER

48079

Biconvex LED, lens made of plastic, connectable LED illumination, lateral scale with mm division, made of plastic

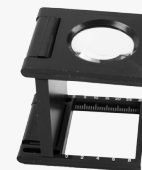

Art. No.	Description	Unit
54056	Magnification 6x 30 x 50mm (DxH)	1 unit

54056

Aspherical, lens made of plastic, lateral scale in mm division, made of plastic

Art. No.	Description	Unit
55082	Magnification 8x 44 x 36 x 44mm (WxLxH)	1 unit

55082

Planoconvex, plastic lens PXM®, mist-free by duplex coating, lateral scale with mm division, made of plastic

Art. No.	Description	Unit
50286	Magnification 10x 12 x 28mm (DxH)	1 unit

ESCHENBACH

50286

Ridge counter

Art. No.	Description	Unit
50313	Simple design, pointed, with plastic handle	10 units 1 package
48081	Professional design, with metal handle	1 unit

Lamps

Magnifier luminaire LED, RLLQ48 R with fastening flange, base absolutely scratchproof glass lens, distortion-free image, function for visualisation for structured effects, 48 SMD LEDs, neutral white 4000K, continuously dimmable, membrane keypad is integrated in head, unique flexibility due to the spring-balanced arm with 3D head joint

Art. No.	Description	Unit
53459	Magnification 1.9x 3.5 dpt 160mm (d)	1 unit

Magnifier luminaire LED vario, circular illumination with table clamp aspherical ceratec® hard-coated PXM® light lens, sharply contoured and distortion-free image, shadow-free working due to 84 SMD LEDs, daylight white 6500K, dimmable in 3 steps, adjustable circleline or segment lighting, swivel range of magnifier head 180°, 6 hinges and 0.9m deflection

Art. No.	Description	Unit
51219	Magnification 1.9x 3.5 dpt 132mm (d)	1 unit

Optional: additional lens 2.5x (for art. No. 51219), table base made of cast iron, lamp is also available in 2.5x magnification, protective cover of lens for bottom side

Magnifier luminaire LED, with table clamp glass lens, white with touches of black, LED 10W, neutral white 4000K, dimmable 10-100%, with automatic shutdown function, counterbalanced swivel arm made of steel/plastic, swivel range 1000mm, magnifier head is made of aluminium, in every direction swivelling, with table clamp

Art. No.	Description	Unit
54369	Magnification 1.88x 3.5 dpt 165mm (d)	1 unit

Optional: attachment lenses with 4dpt, 6dpt and 10dpt. 5 years manufacturer warranty.

Magnifier luminaire LED LBW with table clamp

glass lens, with SMD-LEDs, neutral white 4000K, dimmable in 3 steps, flexible spring-balanced arm, lightweight, 5 years manufacturer warranty.

Art. No.	Description	Unit
54059	Magnification 2.25x 5 dpt 127mm (d)	1 unit

Magnifier luminaire LED with table clamp and protective cover

glass lens, with 80 SMD-LEDs, daylight white 6500K, dimmable in 5 steps

Art. No.	Description	Unit
54019	Magnification 2.25x 5 dpt 152mm (d)	1 unit

Magnifier luminaire LED

Art. No.	Description	Unit
53473	Magnification 1.75x 90 LEDs, 3 dpt with table clamp	130mm (d) 1 unit
53475	Magnification 1.75x 80 LEDs, 3 dpt with base	185x160mm (LxW) 1 unit

Hand magnifier luminaire LED

with 8 LEDs, extremely bright lighting for optimal illumination, glass lens, aluminium housing and handle, with case and batteries

Art. No.	Description			Unit
50138	Magnification 2.5x	6dpt	55mm (d)	1 unit

50138

Biconvex

with lightweight lens made of plastic, with batteries

Art. No.	Description			Unit
53519	Magnification 2.5x	6dpt	55mm (d)	1 unit
48088	Magnification 4x	12dpt	70mm (d)	1 unit
48087	Magnification 6x	20dpt	55mm (d)	1 unit
48636	Magnification 10x	36dpt	35mm (d)	1 unit

53519

48088, 48087, 48636

Aspherical

with lightweight lens made of plastic PXM®, with case and batteries

Art. No.	Description			Unit
53776	Magnification 5x	20 dpt	58mm (d)	1 unit
50622	Magnification 12.5x	50 dpt	35mm (d)	1 unit
53777	Base for hand magnifier luminaire LED Mobilux for art. No. 53776			1 unit

53776, 50622

53777

Base, measuring and precision scale magnifier**Achromatic**

with lens made of silicate and removeable measuring scale, measuring range: 20mm, division 0.1mm, plastic frame black, with illumination unit LED

Art. No.	Description			Unit
52692	Magnification 10x	36dpt	23.5mm (d)	1 unit

52692

Aplanatic

with lens made of silicate and removeable measuring scale, measuring range: 15mm, division 0.1mm, plastic frame black, 45mm (H)

Art. No.	Description			Unit
50531	Magnification 10x	36dpt	30mm (d)	1 unit

50531

Aplanatic

lens 360° rotatable metal base with integrated measuring scale, measuring range: 54mm, division 0.1mm metal frame, dimensions: 76 x 105 x 96mm (LxWxH)

Art. No.	Description			Unit
48099	PS 89 with red reticle	8dpt	60mm (d)	1 unit
	magnification 3x			

48099,

51259

With graticule plate Henry-Disc, lens made of silicate, metal frame

Art. No.	Description			Unit
51259	Magnification 4.5x	14dpt		1 unit

53454

50290

Hand magnifier

Achromatic

with lens made of silicate, metal frame, wooden handle, sharply contoured, colour-corrected lens, anti-reflective coated surface treatment on both sides, very good optical quality, suitable for professional use

Art. No.	Description	Unit
54529	Magnification 3x 8dpt 54mm (d)	1 unit

Aplanatic

with PXM® plastic lens, frame made of light metal, plastic handle black, sharply contoured, good image quality, suitable for professional use

Art. No.	Description	Unit
54579	Magnification 4.5x 14dpt 50mm (d)	1 unit
48097	Magnification 10x 36dpt 22.8mm (d)	1 unit

Aspherical

with PXM® plastic lens, frame made of light metal, plastic handle black, sharply contoured, is used for simple applications

Art. No.	Description	Unit
54578	Magnification 6x 24dpt 50mm (d)	1 unit

Biconvex

with lens made of silicate, metal frame, plastic handle black, is used for simple applications

Art. No.	Description	Unit
48082	Magnification 2x 4 dpt 90mm (d)	1 unit
48083	Magnification 2.5x 6 dpt 65mm (d)	1 unit
50590	Magnification 3.5x 10 dpt 75mm (d)	1 unit
48635	Magnification 2.5x bifocal (with additional lens) bifocus: magnification 5x 20mm (d-bifocus) 6dpt 16dpt	1 unit
48084	Leather case, for hand magnifier with 90mm (D), suitable for art. No. 48082	1 unit
54504	Microfibre pouch, storage for hand magnifier with 65mm (D), black	1 unit

Biconvex

with lens made of silicate, plastic frame and handle black, is used for simple applications

Art. No.	Description	Unit
48643	Magnification 3x 8dpt 40mm (d)	1 unit

Pocket magnifier, biconvex, lens made of plastic, in case, is used for simple applications

Art. No.	Description	Unit
53454	Magnification 3x bifocal (with additional lens) bifocus: magnification 8x 28mm (d-bifocus) in imitation leather case 8dpt 28dpt	1 unit
50290	Magnification 3.5x with leather case 10dpt 45mm (d)	1 unit
